## GLOBAL GOALS IN YEAR 6

Year 6 have been learning all about Global Goals 7 (Affordable and Clean energy) and 13 (Climate Action). We have been thinking about our energy use at school and what we can do to reduce this. We completed a survey about the electricity we use at school and then set some challenges for the staff and pupils at Bank Leaze to try and reduce this.

**13 CLIMATE ACTION**

**WHICH GLOBAL GOALS ARE WE LEARNING ABOUT?**

\* This term, we are learning about global goal 7 and 13, climate action and affordable and clean energy we need to act fast to complete these global goals as we only have till 2030 to complete all of them. First we need to stop cutting down trees. They give us oxygen and are the best part of nature. Secondly, we also need to stop using non-renewable resources for one day they will run out.

Nursery weren't left out of the festivities. They had a lovely range of bonnets too.
